

The Creation

(Tune: Old Supplement, #113)

1. In the very beginning, God made Himself a world,
Yes, a world full of wonderful things.
On the first day of creation, God made Himself some light,
Light casts out darkness,
And a world full of wonderful things.

2. On the second day of creation, the sky took its form,
Sky in the heaven, light casts out darkness,
And a world full of wonderful things.

3. On the third day of creation, the land was put in place,
Land for producing,
Sky in the heaven, light cast out darkness,
And a world full of wonderful things.

4. On the third day of creation, the land began to bloom,
Grass, trees and flowers, land for producing,
Sky in the heaven, light cast out darkness,
And a world full of wonderful things.

5. On the fourth day of creation, came seasons, days and years,
God made the seasons,
Grass, trees and flowers, land for producing,
Sky in the heaven, light cast out darkness,
And a world full of wonderful things.

6. On the fifth day of creation, the fish and birds were made,
Fish to go swimming, birds to go flying,
Grass, trees and flowers, land for producing,
Sky in the heaven, light cast out darkness,
And a world full of wonderful things.
